BACHELOR OF SCIENCE IN
Business
Administration
PROGRAM VIEWBOOK

The university practically began life as the Institute of Accountancy that initially offered a three-year program designed to meet the minimum requirements for the certified public accountant examination.

Far Eastern University started out as a dream, born virtually out of its founder's head, Dr. Nicanor Reyes, in 1928 with the help of a reputed group of educators from the Department of Economics in University of the Philippines.

The university practically began life as the Institute of Accountancy that initially offered a three-year program designed to meet the minimum requirements for the certified public accountant examination.

In order to respond to the needs of the times, the Institute soon branched out to other fields of study. A year after, it became the Institute of Accounts, Business and Finance (IABF).

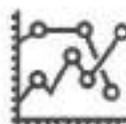

Bachelor of Science in Business Administration

The Bachelor of Science in Business Administration is designed on a simple but revolutionary premise that the most effective way to facilitate and develop successful business leaders as to any management employment track positions, entrepreneurial ventures and/or other graduate business educational programs is to provide the flexibility and depth that allow each student to pursue a curriculum that develops and cultivates the 21st century skills. Students can choose to specialize in any of five business tracks offered.

Specialized Tracks

Business Analytics

Entrepreneurial Management

Financial Management

Leadership & Human Capital Management

Marketing Management

Why choose the BSBA Program?

FEU-IABF Business Administration (BA) Program acknowledges the ever changing educational and business landscapes. The BSBA program is one to address the needs of the industry and the society as whole for **Agile professionals**, **Social entrepreneurs**, **Problem solvers**, **Information experts**, **Responsible citizens** and **Effective communicators**. It is imperative that our graduates are well-rounded individuals and able to thrive in dynamic work environments that continue to evolve with emerging technologies.

Level IV Accreditation Status

Philippine Association of Colleges and Universities
Commission on Accreditation (PACUCOA)

Center of Development

Commission on Higher Education

Agile professionals
Social entrepreneurs
Problem solvers
Information experts
Responsible citizens
Effective communicators

We at IABF-BA recognize the need to equip and empower our students to become what they **A.S.P.I.R.E.** to be in their chosen career path. The BA curriculum is designed to enhance multiple skill sets of our business students in the various disciplines of business analytics, entrepreneurial management, finance, human capital management, and marketing.

We are global. We are A.S.P.I.R.E!

Five Specialized Tracks

BUSINESS ADMINISTRATION

Business Analytics

The Business Analytics track will prepare you in the mathematical disciplines of data analysis and optimization to think critically about data and use data in meaningful ways.

The program is designed to build your capabilities in technical, analytical, and operational areas that can be used to advance a firm's position in the global market. The track is conducted over a technology aided learning platform designed to sharpen core data analysis and management skills as you hone your expertise in data structures, data analysis, and data interpretation.

Moreover, the track will prepare you to become Microsoft Office Specialist in MS Excel and SAP Certified Associate.

testimonials

The Business Administration program of IABF envisions to produce future professionals who will respond to the needs of the global community.

With all the knowledge the instructors are imparting and activities the school is providing, I can say that we are indeed ready to chase our dreams. For me, the BA program will always be a significant part of my success!

Lady Justerinnie Santos

3rd Year Business Administration Student

FEU's BA program taught me that every class discussion is an opportunity to engage in a meaningful discourse. I used to think that marketing is nothing but selling and advertising products and services. Now, I see it in a completely different light; it's about nurturing big ideas, creating value for consumers, communicating with impact, and improving the bottomline.

The BA curriculum provided me with a deeper understanding of my chosen track. I learned skills and acquired competencies that will help me survive and thrive even in the most challenging business environments.

John Daniel Jose

2nd Year Business Administration Student
Marketing Management Track

It's not easy to be a BA student. In my case, I juggle academics and student leadership – something I never thought I am capable of. Yes, it is hard but it's what makes my college life fun and exciting.

More than acquiring knowledge and learning a set of skills that will help me achieve my dream of becoming an entrepreneur, my program exposed me to limitless opportunities that enabled me grow as a business student and as a person.

Clarisse Perez

2nd Year Business Administration Student
Entrepreneurial Management Track

In today's era of emerging financial markets and technology, FEU has equipped me with the skills, knowledge and competencies that I need to conquer the challenges in the corporate arena. The demand is always changing and FEU is ready to charge to make new avenues for effective learning that will produce competitive edges and distinct characteristics. From fundamentals to real-time market scenario applications, I was taught that being able to understand and interpret the disruptions in the financial markets is what will make me able to make an impact. Indeed, FEU is true to its words that a Tamaraw graduate will always embody the values of Fortitude, Excellence and Uprightness. FEU made me future-ready.

Alexander Gillian Avilanes

Class of 2016

Content Analyst – Mergers and Acquisitions

Content Operations and Managed Services – Deals

Refinitiv, the Financial & Risk business of Thomson Reuters

The BA Program of FEU IABF laid the foundations of my core competencies which I imbibed from its holistic and comprehensive approach in developing their students. The program provided me with broad knowledge in different areas such as accounting, marketing, operations, finance, and economics which catapulted me to where I am now. The skills I learned in the program made my job handy as an analyst and executive assistant to the CEO of a Makati-based company. Furthermore, as I intend to further my expertise in the field of finance in my Masters Degree, I attribute my success to FEU's BA program.

Emmanuel T. Flores

Class of 2018

Accounting Analyst & Executive Assistant to the CEO

Forecasting and Planning Technologies, Inc.

IABF's BA program helped me grow in so many ways - not just academically but also in terms of leadership. The program empowered us, students, to choose courses that match our passion and skills set - taught to not only absorb what we learn but also put it into practice. Getting this degree gave me a creative careerpath and limitless opportunities to grow as a professional and as an individual.

Margaret Salonga

Class of 2018

CEO, Enterprise Management Society (2018-2019)

Retail Associate, Amazon Operations Services Philippines, Inc.

testimonials

testimonials

"The Business Administration program will continue to create, innovate, and evolve with the fast-changing world. Our program significantly contributes real-world education with a commitment to produce business professionals who are lifelong learners. Our faculty members, office staff, and academic managers are put together to create a dynamic and competent team committed to continuously improve how business education is delivered."

Maria Carmen Lapuz
Program Head, Business Administration
Adviser, Junior Marketing Association

All the programs of the FEU Business Administration are primarily designed to adequately prepare and confidently secure the future of its stakeholders. As one of the faculty members of this University, I nurtured, witnessed and now affirm that our students have excelled in the field of business.

Helen Advincula
Faculty, Business Administration

Our Business Administration (BA) program provides students with a solid groundwork for a career in business. We have an academically rigorous curriculum that allows learners to incubate ideas, make incisive decisions, fuel innovation, and understand the dynamics of business in general. It transforms classrooms into practical business settings, modules into real-world problems and students into innovative, principled and insightful business leaders.
